360 L/95 gal. NEW MASTER CART

Looking INTO unique features loaded with advantages

- 1 Advanced lid hinge design** offers a tight seal that keeps pests and weather out, trash in. The lid closes effortlessly by its own weight. The domed shape sheds water which is kept out of the container by a molded rim barrier. Two back handles are molded with 4 double-braced attachment hinges for extra strength.
- 2 Ergonomic handles** on 360 L/95 gal. provide easy handling in tight spots or when the cart is against a wall. Even full, the cart can be moved effortlessly. For cleanliness and safety, handles allow the lid to be raised without touching its bottom edge.
- 3 12 in. plastic snap on wheels** provides stability over uneven surfaces.
- 4 A new cart solution** to meet the needs of IPL customers. This Master Cart was developed to meet and exceed competitive product lines with value in mind.
- 5 Lift bar.** In response to customer requests. The 1 in. lift bar has been selected using tubular steel supported by reinforced rigidity in design.

A LOAD OF ADDITIONAL PRODUCTIVE BENEFITS

LONG LIFE EXPECTANCY. UV stabilizer prevents deterioration from exposure to sunlight.

EASY TO ASSEMBLE. Minimal parts save time. Wheels snap on without tools.

EASY TO HANDLE. Designed with the user in mind, easy to open, easy to maneuver even when full.

STRONG AND DURABLE. Can take the worst weather and roughest handling; has 20-year life expectancy. Sturdiness is built into the cart from the start.

EASY TO MAINTAIN. Smooth body walls makes cleaning simple.

SAFE FOR CHILDREN. Cannot fall in or be locked inside.

FLEXIBLE. Suited for automated or semi-automated waste collection.

WIND RESISTANCE. Withstands over 50 mph (80 km/h) winds (empty container).

ENVIRONMENT FRIENDLY. Keeps plastic garbage bags out of the landfill.

ECONOMICAL. Not using garbage bags saves up to \$50 a year.

MAKES COLLECTION EASIER. Universal system design.

360 L / 95 gal. NEW MASTER CART

KEY FEATURES

Injection molded cart for strength and durability

The IPL injection mold process produces exacting design and yields consistent thickness, precision and cost effectiveness.

- **7/8 in. solid steel axle**, yellow-zinc-plated against corrosion.
- **wheel security mount** to prevent theft – opening in hub for chain to secure the cart to a post or fence (optional).
- **integrated metal bar lift**.
- **plastic in-mold lift bar** (optional).
- **12 in. rubber wheel** (optional).
- **dual molded 5/16 in. wear ridge** on bottom of container to prevent wear-through.
- **unibody design requires no bolts that could potentially leak** – no holes at bottom of cart.
- **meets all ANSI standards.**
- **made of high-density polyethylene (HDPE).**
